Art Unit: 1743

The following is an examiner's statement of reasons for allowance: In addition to the remarks of record, the cited prior art fails to teach or suggest a sequential tandem incubator having at least two drive mechanism for moving the slides, where one drive mechanism moves the slides into the incubator and the other drive mechanism moves the slide between the inner and outer rings where **both drive mechanism move the slide in a radial direction exclusively within a common horizontal plane**. The closest prior art, Jakubowicz et al., teach a first drive mechanism(43) that supplies the sample containers (e.g. synonymous to the claimed "slides") and a second drive mechanism(200) that moves the sample containers between the concentric rings, where the two drive mechanisms move the samples in planes that are **normal** to each other.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lyle A. Alexander whose telephone number is 571-272-1254. The examiner can normally be reached on Monday, Wednesday and Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jill Warden can be reached on 571-272-1267. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
